

### HOW TO WINTERIZE YOUR RV

- Turn off your RV's propane supply valve
- Turn off and clean out your refrigerator
- Turn off and unplug any power-consuming devices in your RV
- Use cordless dehumidifiers to prevent mold and mildew
- Keep the cabinet open to maintain air circulation
- Cover your RV's tires when you leave them outside
- Set critter traps throughout your RV while it's in storage
- Completely drain your RV's freshwater tank
- Dump and drain the gray and black water from your RV
- Use RV antifreeze to protect the lines

### ESSENTIAL TOOLS
